

Carma The Social Chameleon's Exhausting List of Image Sites!

In no particular order, are the FREE image sites I use, or have bookmarked over the years. Some are better than others and you can find your own favourites. I also recommend always checking the individual website for attribution instructions. I take no responsibility for your use of these sites. Some of them also contain both free and paid images.

If you STILL can't find what you're looking for and need a stock image that's not going to break the bank, I use a subscription from Graphic Stock, which costs me \$99 (US) per year with unlimited downloads. It's not the most glamorous or extensive collection, but it'll do the job when you need something you can't find free.

<http://graphicstock.refr.cc/K5WQZRT>

This is a referral link - If you use this and sign up I will get a small kick-back from them (full disclosure) feel free to google them if you prefer I didn't.

I also use Canva For Work for resizing, making quotes and collages on desktop and Snapseed on Android for photo editing.
